<i>Abstract</i> .....	<i>i</i>
<i>Acknowledgement</i> .....	<i>iii</i>
<i>Contents</i> .....	<i>v</i>
<i>List of Figures</i> .....	<i>ix</i>
<i>List of Tables</i> .....	<i>xv</i>
<i>Abbreviations</i> .....	<i>xvii</i>
<i>Preface</i> .....	<i>xix</i>
<b>Chapter 1. Introduction</b> .....	<b>1</b>
1.1. Composite Constituents .....	2
1.2. Characteristics of Laminated FRP Composites.....	3
1.3. Construction of Sandwich Composites .....	7
1.4. Classification of Sandwich Composites.....	8
1.5. Design Principle of Sandwich Structure .....	9
1.6. Failure of Sandwich Structure.....	13
1.7. Fly Ash as Sustainable Particulate Reinforcement .....	15
1.8. Scope of the Present Work.....	16
<b>Chapter 2. Literature Review</b> .....	<b>17</b>
2.1. Surface Modification of Particulate Reinforcement .....	19
2.2. Influence of Reinforcement on Cellular Morphology.....	22
2.3. Effect of Particulate Size and Shape .....	25

2.4.	Quasi-Static Indentation .....	29
2.5.	Utilization of FA as a Reinforcement.....	33
2.6.	Motivation and Research Gaps.....	36
2.7.	Research Objectives of the present work .....	37
<b>Chapter 3. Materials and Methods of Characterizing Sandwich Composites</b>		
<b>Components and Panels.....</b>		<b>41</b>
3.1.	Materials.....	41
3.1.1.	Face Sheet Material .....	41
3.1.2.	Foam Core Material.....	45
3.2.	Fabrication of Sandwich Composites.....	48
3.2.1.	Fabrication of FRP Laminated Face Sheets.....	48
3.2.2.	Fabrication of the Neat and FA-PUF Core .....	49
3.2.3.	Fabrication of Sandwich Composite.....	52
3.3.	Physical Characterization .....	52
3.3.1.	Density Measurement of Laminated Face Sheet and PUF Core.....	52
3.3.2.	Scanning Electron Microscopy.....	54
3.4.	Mechanical Characterization.....	54
3.4.1.	Tensile Testing of Face Sheets .....	54
3.4.2.	Compression Testing of Sandwich Core .....	55
3.4.3.	Shear Test of Core .....	56
3.4.4.	Bend Test of Sandwich Composites .....	57
3.4.5.	Quasi-static Indentation Test .....	57
<b>Chapter 4. Characterization of FA Reinforced PU Foam Core Sandwich Composites</b>		
<b>under Bending.....</b>		<b>61</b>
4.1.	Physical Characterization.....	61

4.1.1.	Density of Face Sheet and PUF Core .....	61
4.1.2.	Particle Size Distribution of Surface Treated Fly Ash.....	63
4.2.	Mechanical Characterization.....	64
4.2.1.	Tensile Test of GFRP and CFRP.....	65
4.2.2.	Shear Test of Polyurethane Foam Core .....	67
4.2.3.	Bending Test on Sandwich Composite.....	70
4.3.	Scanning Electron Microscope Analysis and Reinforced Mechanism of Fly Ash to PUF Core.....	75
<b>Chapter 5. Compression and Indentation Damage Mechanics of FA Reinforced PU Foam Core .....</b>		<b>79</b>
5.1.	Mechanical Characterization.....	79
5.1.1.	Compression Testing of PUF Core.....	79
5.1.2.	Quasi-Static Indentation Test .....	83
5.2.	Cross-section Examination of Damaged PUF Core.....	93
5.3.	SEM Micrograph Study .....	96
<b>Chapter 6. Indentation Damage Mechanics of FA Reinforced PU Foam Core Sandwich Composites .....</b>		<b>101</b>
6.1.	Indentation Response of Sandwich Composites .....	101
6.1.1.	Effect of Indenter’s Nose Profile Geometry on Indentation Resistance of Neat PUF GFRP/CFRP Face Sheet Sandwich Composites.....	105
6.1.2.	Effect of Face Sheet Material on Indentation Resistance of Sandwich Composites with respect to each Indenter’s Nose Profile Geometry.....	108
6.1.3.	Effect of FA Reinforcement on Indentation Resistance of PUF Core Sandwich Composites.....	111

<b>Chapter 7. Conclusions and Future Scope.....</b>	<b>117</b>
7.1. Conclusions .....	117
7.2. Future Scope.....	120
<b>References .....</b>	<b>121</b>
<b>List of Publications .....</b>	<b>145</b>
