List of tables.....	xix
List of abbreviations.....	xxi
Preface.....	xxiii

### Table of contents

<b>1. Introduction.....</b>	<b>1</b>
<b>1.1. E-waste.....</b>	<b>1</b>
1.1.1. <i>Global e-waste generation statistics.....</i>	<i>1</i>
1.1.2. <i>Indian scenario .....</i>	<i>2</i>
1.1.3. <i>Recycling statistics.....</i>	<i>2</i>
1.1.4. <i>Consequences of e-waste generation.....</i>	<i>3</i>
<b>1.2. Printed circuit boards.....</b>	<b>4</b>
<b>1.3. Opportunities for metal recovery from PCBs.....</b>	<b>4</b>
<b>1.4. Pre-separation treatment.....</b>	<b>5</b>
<b>1.5. Chemical techniques for metal recovery.....</b>	<b>7</b>
1.5.1. <i>Pyrometallurgy.....</i>	<i>7</i>
1.5.2. <i>Hydrometallurgy.....</i>	<i>9</i>
1.5.2.1. <i>Leaching.....</i>	<i>10</i>
i) <i>Base-metal leaching.....</i>	<i>10</i>
ii) <i>Gold leaching .....</i>	<i>12</i>
1.5.2.2. <i>Purification of leach solution.....</i>	<i>15</i>
i) <i>Cementation and Adsorption.....</i>	<i>15</i>
ii) <i>Ion exchange process .....</i>	<i>19</i>
iii) <i>Solvent extraction.....</i>	<i>20</i>
iv) <i>Polymer Inclusion Membrane .....</i>	<i>24</i>

1.5.3. <i>Electrochemistry</i> .....	26
1.5.4. <i>Biohydrometallurgy</i> .....	28
<b>1.6. Importance of Eh-pH diagrams in metal recovery</b> .....	29
<b>1.7. Aim and scope of the present work</b> .....	33
<b>2. Experimental details</b> .....	39
<b>2.1. Procurement of chemicals and materials</b> .....	39
<b>2.2. Pre-processing of WPCBs</b> .....	39
2.2.1. <i>Estimation of composition in WPCBs</i> .....	40
2.2.2. <i>Chemical pre-treatment: Delamination of layers by dissolving resin in an organic solvent</i> .....	43
2.2.3. <i>Analysis of liberated metallic fraction</i> .....	44
<b>2.3. Two-stage Leaching</b> .....	47
<b>2.4. Solvent extraction</b> .....	49
2.4.1. <i>Separation of copper and nickel</i> .....	49
2.4.2. <i>Separation of gold</i> .....	52
2.4.2.1. <i>Synthesis of organic amides</i> .....	52
2.4.2.2. <i>Solvent extraction of gold</i> .....	56
<b>2.5. Separation of silver by cementation</b> .....	57
<b>2.6. Characterization methods</b> .....	59
2.6.1. <i>Inductively coupled plasma-optical emission spectrophotometer (ICP-OES)</i> ..	59
2.6.2. <i>Atomic absorption spectroscopy (AAS)</i> .....	60
2.6.3. <i>X-ray diffraction (XRD)</i> .....	61
2.6.4. <i>UV-Visible spectrophotometer</i> .....	62
2.6.5. <i>Scanning electron microscopy (SEM)</i> .....	63
2.6.6. <i>Nuclear magnetic resonance Spectroscopy (NMR)</i> .....	63
<b>3. Results and Discussion</b> .....	62
<b>3.1. Two-stage leaching from obsolete mobile phone PCBs: Extraction of copper, nickel and gold</b> .....	69
3.1.1. <i>Stage-1 leaching: Dissolution of copper, nickel and isolation of gold</i> .....	69
3.1.1.1. <i>Sulfuric acid leaching</i> .....	69
3.1.1.2. <i>Nitric acid leaching</i> .....	71
i) <i>Effect of concentration of nitric acid</i> .....	71
ii) <i>Effect of temperature</i> .....	72

iii) Effect of pulp density .....	73
iv) Effect of stirring speed .....	75
3.1.1.3. Analysis of stage-1 leach residue.....	77
3.1.1.4. Kinetic study of leaching of copper and nickel .....	78
3.1.2. <i>Stage-2 leaching: Dissolution of gold</i> .....	81
3.1.2.1. Effect of leaching reagent .....	82
3.1.2.2. Effect of concentration of sodium bromide in leachant.....	83
3.1.2.3. Effect of temperature on gold leaching.....	84
3.1.2.4. Effect of stirring speed.....	85
3.1.2.5. Kinetic study of leaching of gold.....	87
<b>Conclusions</b> .....	89
<b>3.2. Separation of copper and nickel from stage-1 leach solution</b> .....	93
3.2.1. <i>Solvent extraction of copper (SX1)</i> .....	95
3.2.1.1. Effect of initial pH of the aqueous solution .....	95
3.2.1.2. Effect of organic to aqueous phase ratio (O/A) .....	97
3.2.1.3. Effect of concentration of extractant .....	99
3.2.1.4. Effect of extraction equilibrium time.....	100
3.2.1.5. Effect of stripping reagent .....	102
3.2.2. <i>Solvent extraction of nickel (SX2)</i> .....	103
3.2.2.1. Effect of initial pH .....	104
3.2.2.2. Effect of concentration of extractant .....	105
3.2.2.3. Effect of organic to aqueous phase ratio.....	106
3.2.2.4. Effect of extraction equilibrium time.....	108
3.2.2.5. Effect of stripping reagent .....	110
3.2.3. <i>Separation of trace elements from SX2 raffinate by cementation</i> .....	112
Conclusions.....	114
<b>3.3. Separation of gold and silver from stage-2 leach solution</b> .....	119
3.3.1. <i>Separation of gold from stage-2 leach solution by solvent extraction</i> .....	119
3.3.1.1. Effect of type of amide on gold extraction .....	121
3.3.1.2. Effect of stripping reagent .....	122
3.3.2. <i>Separation of silver from raffinate through Cementation</i> .....	124
3.3.2.1. Optimization of the quantity of copper powder.....	125

3.3.2.2. Effect of temperature .....	126
3.3.2.3. Effect of stirring speed.....	127
3.3.2.4. Analysis of Residue .....	128
3.3.2.5. Kinetics of cementation .....	129
Conclusions.....	131
<b>3.4. Validation of two-stage leaching through Response Surface Methodology (RSM) - A DOE study.....</b>	<b>135</b>
<i>3.4.1. Validation of stage-1 leaching by response surface methodology.....</i>	<i>137</i>
<i>3.4.2. Validation of stage-2 leaching by response surface methodology.....</i>	<i>145</i>
Conclusions.....	151
<b>4. Major conclusions and scope for future work.....</b>	<b>155</b>
<b>4.1. Major conclusions of the present work.....</b>	<b>155</b>
<b>4.2. Scope for future work.....</b>	<b>158</b>
<b>References .....</b>	<b>159</b>
<b>Appendices.....</b>	<b>177</b>
<b>List of Publications .....</b>	<b>185</b>
