LIST OF FIGURES

Figure		Page No.
1.1	*C, S, O, N*-nitroso compounds	1
1.2	Biological significant metal nitrosyl compound sodium nitroprusside	2
1.3	Dimerization of *C*- nitroso compounds	3
1.4	*S*-nitroso containing biological compounds	6
1.5	*Cis-trans* isomerization of RSNOs	7
1.6	Variation in dihedral angle of *S*-nitrosothiols	7
1.7	Different alkyl nitrites	8
1.8	Restricted rotation of *N*-nitrosamines	10
1.9	Applications of *N*-nitrosamines	12
1.10	Different lithionitrosamine mediated electrophilic substitution	13
1.11	Hydrazine-based active pharmaceutical ingredients	18
1.12	Pendamethalin and its *N*-nitroso derivative	21
1.13	Binding modes in interaction of metal-nitrosamine	23
2.1	Biologically important *N*-nitroso compounds.	34
2.2	Recent applications of *N*-nitrosamines as a directing group for inert C-H bond activation	35
2.3	Solubility of byproducts in aqueous work-up	40
2.4	Different orientations of *N*-nitrosamines	47
2.5	^{1}H NMR of product **2a** in $CDCl_3$	75
2.6	^{13}C NMR of product **2a** in $CDCl_3$	75
2.7	^{1}H NMR of product **2p** in $CDCl_3$	76
2.8	^{13}C NMR of product **2p** in $CDCl_3$	76
2.9	^{1}H NMR of product **2t** in $CDCl_3$	77
2.10	^{13}C NMR of product **2t** in $CDCl_3$	77
3.1	^{1}H NMR of product **2a** in $CDCl_3$	123
3.2	^{13}C NMR of product **2a** in $CDCl_3$	123
3.3	^{1}H NMR of product **2x** in $CDCl_3$	124
3.4	^{13}C NMR of product **2x** in $CDCl_3$	124
4.1	Synthetic importance of nitroanilines.	130
4.2	^{1}H NMR of product **2aa** in $CDCl_3$	212
4.3	^{13}C NMR of product **2aa** in $CDCl_3$	212
4.4	^{1}H NMR of product **3aa** in $CDCl_3$	213

4.5 ^{13}C NMR of product **3aa** in $CDCl_3$ 213
4.6 ^{1}H NMR of product **4aa** in $CDCl_3$ 214
4.7 ^{13}C NMR of product **4aa** in $CDCl_3$ 214
5.1 Biologically relevant hydrazines, hydrazones and hydrazides 217
5.2 Synthetic importance of aryl hydrazines 218
5.3 Comparative ^{1}H NMR (in $CDCl_3$) of *N*-methyl *N*-phenyl hydrazine obtained from the reduction of *N*-nitroso *N*-methyl aniline using TDO-NaOH and Zn-AcOH systems 227
5.4 ^{1}H NMR of product **2a** in $CDCl_3$ 246
5.5 ^{13}C NMR of product **2a** in $CDCl_3$ 246
6.1 Applications of *N*-nitroamines in organic synthesis 250
