

## List of Tables

Table No.	Title	Page No.
Table 1.1	List of bacterial strains used in the biosynthesis of AgNPs	21
Table 1.2	List of bacterial strains used in the biosynthesis of AuNPs	24
Table 1.3	List of fungal strains used in the biosynthesis of AgNPs	25
Table 1.4	List of fungal strains used in the biosynthesis of AuNPs	28
Table 1.5	List of algal strains used in the biosynthesis of AgNPs	31
Table 1.6	List of algal strains used in the biosynthesis of AuNPs	34
Table 1.7	List of actinomycetes and yeasts used in the biosynthesis of AgNPs and AuNPs	37
Table 1.8	List of different plants and their parts used in the biosynthesis of AgNPs	42
Table 1.9	List of different plants and their parts used in the biosynthesis of AuNPs	50
Table 1.10	Table is showing the relationship between the diameter, surface area, volume, and surface area to volume ratio	58
Table 2.1	List of chemicals	80
Table 3.1	Diameter of inhibitory zone (mm) of the control, AgNO <sub>3</sub> , AgNPs, and (AEX) against <i>Escherichia coli</i> and <i>Staphylococcus aureus</i>	132
Table 4.1	Antimicrobial activity of AgNPs, aqueous AgNO <sub>3</sub> , and AEC	169
Table 5.1	Comparison table showing the peroxidase-like activity of different nanomaterials for the colorimetric detection of H <sub>2</sub> O <sub>2</sub>	203
Table 6.1	Comparison table showing the average size obtained from TEM and XRD analysis	223
Table 6.2	Different sensors developed for the detection of GSH	236
Table 6.3	Utilization of the developed sensor system for the detection of GSH in real samples	238
Table 7.1	The table showing the comparison of previously reported analytical performance of non-enzymatic H <sub>2</sub> O <sub>2</sub> sensors	261
Table 8.1	Comparison table showing the different materials used for the detection of ChO	281
