**Titles** **Page No.**

## CHAPTER-1

### Overview of Isatin derivatives

1.1	Brief Introduction.....	1
1.2	Synthetic approaches of Isatin.....	4
1.3	Study of the reactivity of isatin.....	8
1.3.1	N- substitution at isatin.....	8
1.3.2	Reactivity due to the carbonyl group of isatin .....	10
1.3.3	Reactivity of C-3 carbonyl group of isatin .....	11
1.3.4	Oxidation.....	16
1.3.5	Ring expansion reactions.....	18
1.3.6	Reduction.....	19
1.3.7	Electrophilic Aromatic Substitution of Isatin.....	21
1.3.8	Synthesis of isatin based spiro-fused heterocyclic scaffolds.....	23
1.4	References .....	42

## CHAPTER-2

### A facile and efficient multicomponent ultrasound-assisted “on water” synthesis of benzodiazepine ring

2.1	Introduction.....	61
2.2	Results and Discussion.....	66

2.3	Gram-Scale synthesis of benzodiazepine ring.....	76
2.4	Conclusion.....	76
2.5	Experimental section.....	77
2.5.1	Typical procedure for preparation of compound.....	77
2.5.2	Analytical Data.....	77
2.5.3	Spectral Data of Product.....	87
2.6	References .....	89

### CHAPTER-3

#### **Grinding induced catalyst free, multi-component synthesis of Indoloindole pyrimidine**

3.1	Introduction.....	96
3.2	Results and Discussion.....	99
3.3	Conclusion.....	109
3.4	Experimental section.....	110
3.4.1	General experimental procedure for synthesis of compound of (4).....	110
3.4.2	Analytical Data.....	110
3.4.3	Spectral Data of Product.....	118
3.5	References .....	120

### CHAPTER-4

#### **A Visible light triggered synthesis of spiro [indoline-3, 4'-quinoline] via oxidative coupling of indole with enamionone and malononitrile**

4.1	Introduction.....	123
-----	-------------------	-----

4.2	Results and Discussion.....	126
4.3	Conclusion.....	143
4.4	Experimental section.....	143
4.4.1	Typical procedure for preparation of compound.....	143
4.4.2	Analytical Data.....	143
4.4.3	Spectral Data of Product.....	151
4.4.4	Copies of HRMS data of product (4a).....	153
4.4.5	Data of UV-Visible absorption Spectra .....	156
4.4.3	ON/OFF experiments .....	160
4.5	References .....	161

## **CHAPTER-5**

### **One-Pot Four-Component Synthesis of Spiro[Indoline-3,4'-Quinoline] Derivative**

#### **Using DABCO As A Green Catalyst**

5.1	Introduction.....	164
5.2	Results and Discussion.....	168
5.3	Conclusion.....	180
5.4	Experimental section.....	181
5.4.1	General experimental procedure for synthesis of compound of (4).....	181
5.4.2	Analytical Data.....	181
5.4.3	Spectral Data of Product.....	192
5.5	References .....	194

#### **Summary and Conclusions**

#### **List of Research Publications**
