

# Table of Contents

## Table of Contents

List of Figures .....	xv
List of Tables .....	xxiii
List of Abbreviations .....	xxv
List of Mineral Abbreviations .....	xxvii
Ab Albite.....	xxvii
Preface .....	xxix
INTRODUCTION .....	1
1.1 General.....	1
1.2 Scope of the Investigation .....	5
1.3 Methodology.....	7
1.4 Purpose of the Thesis.....	11
CHAPTER - 2 .....	15
LITERATURE REVIEW .....	15
2.1 General.....	15
2.2 Introduction .....	15
2.3 Previous work done in the Bundelkhand Craton .....	16
2.4 Geothermobarometry and Phase equilibria modelling .....	18
2.5 Geochemistry .....	21
2.6 Why to need this study .....	24
CHAPTER - 3 .....	27
GEOLOGICAL SETTING .....	27
3.1 Introduction .....	27
3.2 Geology and stratigraphy of the Bundelkhand craton .....	27
3.2.1. Tonalite-Trondhjemite-Granodiorite Gneisses (TTGs).....	29
3.2.2. Metasupracrustals associated with greenstone belts .....	30
3.2.3. Amphibolites .....	31
3.2.4. Pillow basalts.....	31
3.2.5. Banded iron formations (BIFs) .....	32
3.2.6 Madawara Ultramafic Complex (MUC).....	32
3.2.7 Intrusive Granitoids, Syenites and Pegmatites .....	33
3.2.8 Giant Quartz Veins (GQVs).....	34
3.2.9 Mafic Dykes .....	35
3.3 Geology around Mauranipur and Babina region .....	35
3.4 Metamorphism .....	37

3.5 Tectonic imprint.....	38
3.6 Geochronology.....	39
CHAPTER 4 .....	41
PETROGRAPHY .....	41
4.1 Introduction .....	41
4.2 Petrography .....	41
4.3 Preparation of thin polished section.....	42
4.4 Petrography of thin sections.....	43
4.4.1 Pelitic granulites.....	43
4.4.2 Garnet-biotite gneisses .....	51
4.4.3 Amphibolites.....	54
4.4.4 Granitoids.....	64
4.4.5 Quartz Reef .....	72
4.4.6 Dolerite Dykes.....	72
4.4.7 Mylonitised Rocks .....	74
CHAPTER-5 .....	77
MINERAL CHEMISTRY .....	77
5.1 Introduction .....	77
5.2 EPMA analytical technique .....	78
5.3 Garnet .....	79
5.3.1 Garnet zoning.....	80
5.3.2 Ca & Mn content of garnet .....	81
5.4 Pyroxene .....	82
5.4.1 Orthopyroxene.....	83
5.4.2 Clinopyroxene .....	83
5.5 Amphibole.....	84
5.5.1 Classification of amphibole .....	85
5.6 Cordierite .....	87
5.7 Mica.....	87
5.7.1 Biotite.....	88
5.7.1 TiO <sub>2</sub> content.....	89
5.8 Feldspar.....	90
5.9 Opaque.....	91
5.10 Epidote .....	93
5.11 Chlorite.....	93
5.12 Sillimanite.....	94
CHAPTER - 6.....	95
GEOCHEMISTRY .....	95

6.1 Introduction .....	95
6.2 Major oxides Geochemistry .....	96
6.3 Trace Element Geochemistry .....	96
6.4 Rare Earth Elements Geochemistry .....	97
6.5 Analytical techniques .....	98
6.5.1 XRF and ICP-MS .....	98
6.6 Pelitic granulites .....	98
6.6.1 Major oxides .....	99
6.6.2 Trace and REEs .....	100
6.6.3 Discussion .....	101
6.7 Garnet-Biotite gneisses .....	105
6.7.1 Major oxides .....	105
6.7.2 Trace and REEs .....	106
6.7.3 Discussion .....	107
6.8 Amphibolites .....	108
6.8.1 Major oxides .....	108
6.8.2 Trace and REEs .....	109
6.8.3 Petrogenesis and tectonic implications .....	111
CHAPTER – 7 .....	115
PART A- GEOTHERMOMETRY AND GEOBAROMETRY .....	115
7.A.1 Introduction .....	115
7.A.2 Thermodynamic Basis .....	115
7.A.3 Presumption .....	116
7.A.4 Geothermobarometers .....	117
7.A.5 Reaction Terminology .....	118
7.A.6 Geothermometry .....	119
7.A.7 Geobarometry .....	119
7.A.8 Problem/ Errors in Geothermobarometry .....	120
7.A.9 Concluding Remarks .....	123
PART B- GEOTHERMOBAROMETRY .....	124
7.B.1 Geothermometers .....	124
7.B.1.1 Garnet-biotite geothermometry .....	124
7.B.1.2 Garnet-orthopyroxene geothermometry .....	129
7.B.1.3 Garnet-cordierite geothermometry .....	131
7.B.1.4 Garnet-clinopyroxene geothermometry .....	135
7.B.1.5 Amphibole-plagioclase geothermometry: .....	136
7.B.2 Geobarometers .....	137
7.B.2.1 Garnet-biotite -plagioclase-quartz geobarometers .....	137

7.B.2.2 Garnet-orthopyroxene-plagioclase-quartz geobarometers .....	138
7.B.2.4 Amphibole-plagioclase-quartz geobarometers .....	143
7.B.2.5 Garnet-cordierite-sillimanite-quartz geobarometers.....	144
PART C- APPLICATION OF GEOTHERMOBAROMETERS AND AVERAGE $P-T$ .....	147
7.C.1 Pelitic granulite .....	147
7.C.2 Garnet-biotite gneisses.....	148
7.C.3 Amphibolites.....	149
CHAPTER – 8 .....	155
METAMORPHIC CONDITION .....	155
8.1 Introduction .....	155
PART-A: PHASE PETROLOGY .....	155
8.A.1 Introduction.....	155
8.A.2 Phase compatibility relations .....	156
PART B- BULK COMPOSITION MODELLING.....	160
8.B.1 Application of equilibrium thermodynamics .....	160
8.B.2 Pseudosection modelling.....	162
8.B.3 Methodology.....	163
8.B.4 $P-T$ Pseudosections .....	163
CHAPTER-9 .....	191
TECTONO-METAMORPHIC EVOLUTION .....	191
9.1 Metamorphic condition .....	191
9.1.1 Petrographic evidences.....	192
9.1.2 P-T-t Path .....	194
9.3 Global correlation of BuC with the Ur and Kenorland supercontinent .....	207
SUMMARY AND CONCLUSION.....	211
References.....	229
List of Publications .....	259
