## **List of Publications**

**Pathak. P,** Dwivedi, S.B. and Kumar. R.R.; Metamorphic Evolution of the Amphibolites from Bundelkhand Craton, Central India: P-T Constraints and Phase Equilibrium Modelling. *Journal of Environment and Earth Sciences*. 4(1); 15-31(2022). <https://doi.org/10.30564/jees.v4i1.4397>.

**Pathak. P,** Dwivedi, S.B. and Kumar. R.R.; Geochemistry and Phase equilibrium modelling of garnet-biotite gneiss from Mauranipur, Bundelkhand Craton, Northern India; implication for tectonic setting and metamorphism. *Journal of Goandwana Scientific Research*. 7(2) 2022. <https://doi.org/10.56153/g19088-021-0048-2>

**Pathak. P,** Dwivedi, S.B.; Characterization of Trace and Rare Earth Element in the gneissic rocks from the Bundelkhand Craton, Central India. *Mathematical Statistician and Engineering Applications*, 71(4), 24–36, 2022.

Kumar, R.R., Dwivedi, S.B., and **P Pathak**: Phase equilibria modelling and geochemistry of high-grade gneiss from Chotanagpur granite-gneiss complex, Eastern India: implications in tectono-metamorphic evolution. *Geosystems and Geoenvironment*. 1(4) 2022. <https://doi.org/10.1016/j.geogeo.2022.100082>

**Pathak. P,** Dwivedi, S.B. and Kumar. R.R.: Phase equilibria modelling and textural relationship of Pelitic granulites and Grt-Bt gneisses from Mauranipur of the Bundelkhand Craton, central India. *Arabian Journal of Geosciences*. Revision submitted.

**Pathak. P,** Dwivedi, S.B. and Kumar. R.R.: Geochemistry and Bulk composition modelling of amphibolite enclaves from the Central Bundelkhand Craton, India; implication in tectano-metamorphic evolution. *Journal of Earth system science*. Revision submitted.

Dwivedi, S.B., **Pathak. P,** Theunuo, K. and Kumar, R.R.: U–Pb SHRIMP zircon dating and Geochemistry of metapelites from the Shillong Meghalaya Gneissic Complex, NE India: Implications for nature of protolith, sedimentation period, and tectonic setting. *Geosystems and Geoenvironment*, Revision submitted.

Kumar, R.R., Dwivedi, S.B., and **P Pathak**: Geochemistry and Bulk composition modelling and of mafic granulite from Chotanagpur granite-gneiss complex, Eastern India: implications for its tectono-metamorphic evolution. *International Journal of Earth Sciences*. Submitted.
