

## **LIST OF TABLES**

---

	<b>Page No.</b>
<b>Table 1.1</b> Advantages and disadvantages of reinforcing fibers.....	5
<b>Table 1.2</b> Specific modulus and specific strength of different materials.....	10
<b>Table 1.3</b> Properties of graphite.....	13
<b>Table 3.1</b> The results obtained from the three point bend specimen simulation.....	77
<b>Table 4.1</b> Dimensions of tee joint model.....	83
<b>Table 4.2</b> Thermoelastic material properties.....	83
<b>Table 5.1</b> Dimensions of tee joint model.....	98
<b>Table 5.2</b> Thermo-elastic material properties.....	98
<b>Table 6.1</b> Thermoelastic material properties.....	125
<b>Table 6.2</b> Strain energy release rates for the delamination under thermo-mechanical loading for three point bending.....	133
<b>Table 6.3</b> Strain energy release rates for the delamination under thermo-mechanical loading for tension.....	138
<b>Table 7.1</b> Material Properties of graphite/epoxy.....	146
<b>Table 7.2</b> Composite Laminate Parameters.....	146
<b>Table A.1</b> Comparison of estimated values of Weibull parameters (axial orientation)....	197
<b>Table A.2</b> Comparison of estimated values of Weibull parameters (radial orientation)...	198
