

# Acknowledgement

*The work presented in this thesis would not have been possible without my close association with many peoples who were always there when I needed them the most. I take this opportunity to acknowledge them and extend my sincere gratitude for helping me make this thesis a possibility. At this moment of accomplishment, first of all I would like to pay the homage to the founder of Banaras Hindu University, Pandit Madan Mohan Malviya ji, who made this glorious temple to realize spiritual, technical and scientific knowledge about this vast existing universe.*

*I embrace the opportunity to express my deep sense of gratitude to my supervisor **Dr. Rajiv Prakash**, Professor, School of Materials Science & Technology, IIT (B.H.U.), Varanasi for his constant guidance, valuable suggestions and kind encouragement during my association with his research group. His encouragement, constant support, intellectual stimulation, perceptive guidance, immensely valuable ideas, and suggestions from the initial to the final level enabled me to develop an understanding of the subject. His scholarly suggestions, prudent admonitions, immense interest, constant help and affectionate behavior have been a source of inspiration for me. His suggestions will remain with me as an inexhaustible source of scientific learning throughout my life.*

*I would like to express my sincere and whole hearted gratitude to **Prof. P. Maiti**, **Dr. C. Upadhyay**, **Dr. C. Rath**, **Dr. A. K. Singh**, **Dr. B. N. Pal**, **Dr. Ashish kumar Mishra**, **Dr. Sanjay Singh** **Dr. Shravan kumar Mishra**. And **Dr. Ashish Kumar Singh** (School of Materials Science and Technology, IIT-BHU, Varanasi) for discussion during seminars and valuable suggestions given by them. I am indeed obliged and sincerely thankful to my RPEC member **Prof. P. C. Pandey**, Department of Chemistry, IIT- BHU for his guidance and untiring attention right from the inception to the successful completion of assigned research work. Most of the results described in this thesis would not have been obtained without a close collaboration with few laboratories. I am thankful to **Dr. A. K. Sihna** (Head, Department of Chemical Engineering, IIT (BHU), **Dr.***

## **Acknowledgement**

*T. Shripathi and Dr. U. Deshpande (UGC-DAE Consortium for Scientific Research, Indore, India) for providing XPS facility.*

*I am thankful to the unknown reviewers who have rejected my papers several times in some of the international conferences and journals. The comments that they provided helped to polish our articles in better shape. But the bigger and nobler cause of thanking them is that the rejections have equipped me with high level of patience and helped me a lot to exercise/implement my spiritual thoughts in practice.*

*My acknowledgement will never be complete without the special mention of my lab seniors who have taught me the lab culture and have lived by example to make me understand the hard facts of life. I would like to acknowledge **Dr. Arun K. Singh, Dr. Akhilesh K. Singh, Dr. Ashish Kumar, Dr. Rajiv kumar Pandey, Dr. Shashi Tiwari, Dr. Sandeep Gupta, Dr. Gopal Ji, Dr. Shraddha Singh, Dr. Monika Srivastava, Dr. Uday Pratap Azad, Dr. Narsingh Raw Nirala, Dr. Neeraj Giri, Dr. Madhu Tiwari, Dr. Kashish, Dr. Preeti Tiwari, Manish Kumar Singh, Nandlal Rajak and Richa Mishra** for all their support and motivation during the initial days of my PhD. I can see my thesis in the good shape because of his help in formatting the entire thesis. I express my special thanks to my senior **Dr. Madhu Tiwari** for her guidance, support, motivation and valuable suggestions.*

*Also I am thankful to my lab fellows and juniors of my lab specially **Chandrajeet, Vineet, Nikhil, Ravi, Bishnu, Ajay, Aniruddha, Priya, Shweta, Subhajit, Saurabh, Shivam, Rajpal** for their helping behavior.*

*It's my fortune to gratefully acknowledge to the **Monika Singh, Sushma Yadav, Akansha Yadav**(Department of ceramic) **Kanchan Yadav, Pragati Singh** (Department of physics), **Priyanka pandey** (Department of chemistry, BHU), **Savita Yadav, Shwarnima Singh** (Department of chemistry) **Vinita** (Department of Mathamatics) for their generous care and the homely feeling at hostel. Their association has made my stay in IIT (BHU) a pleasurable and memorable experience. My outing and shopping with them will be etched permanently in my*

## Acknowledgement

memory. They were always beside me during the happy and hard moments to push me and motivate me. A special thanks goes to **Dinesh Kumar** for his valuable time and devotion which made me possible to timely submit the thesis. My research seniors and juniors from the Materials Science, **B. Bharti, Priyanka Tiwari, Narendra Verma, Satyaveer Singh, Pragya Singh, Om Prakash, Deepti Gangwar** and from the list is endless...thanks to one and all.

I wish to thank to Honorable Vice Chancellor **Prof. V.K. Singh** & Head of Department of Chemistry **Prof. O.P. Pandey, Deen Dayal Upadhyaya Gorakhpur University, Gorakhpur** for support and cooperation to complete my Ph.D.

I am also thankful to all, to whom I could not mention here who helped me directly or indirectly throughout the work. I am thankful to all non-teaching staff of SMST, IIT (BHU) and CIFC for their cooperation at all levels.

I express my indebtedness to my parents **Smt. Sushila and Sri. Brahma Deen**, my sisters **Anita, Neelam and Pratibha** for their love, affection and support during every moment in my life. Words fail me to express my appreciation to my younger brother **Shivansu Kumar** and My dear friend **Pravesh Kumar Yadav** for their unconditional and continuous support, generous care and encouragement.

I gratefully acknowledge the MHRD and CSIR New Delhi for providing me the necessary funding and fellowship to pursue research work.

This work would not have been possible without the grace of the "Lord Shiva and Mata Di".

  
(Vinita)

<b>List of Figures</b>		i-xii
<b>List of Tables</b>		xiii
<b>List of Abbreviations / Symbols</b>		xiv-xvi
<b>Preface</b>		xvii-xix
<b>Chapter – 1</b>	<b>Introduction &amp; Literature Survey</b>	<b>1-38</b>
	1.1 General introduction	1
	1.2 Brief history of sensors	2
	1.3 The sensor system	3
	1.4 Catalyst	13
	1.5 The role of nonmaterials for catalysis and sensing	16
	1.6 The role of coordination polymers for catalysis and sensing	21
	1.7 Nanomaterials and coordination polymers used as artificial enzyme: a substitute of natural enzymes	28
	1.8 Immobilization of biomolecules on nanomaterials	31
	1.9 Motivation and Objective of the thesis	34
	1.10 Benefits of the proposed materials for catalysis and sensing applications	35
<b>Chapter – 2</b>	<b>Experimental Techniques</b>	<b>39-52</b>
	2.1 Characterization Techniques	39
<b>Chapter – 3</b>	<b>One step synthesis of AuNPs@MoS<sub>2</sub>-QDs composite as a robust peroxidase- mimetic for instant unaided eye detection of glucose in serum, saliva and tear</b>	<b>53-82</b>
	3.1 Introduction	53
	3.2 Experimental Section	55
	3.3 Results and Discussion	58
	3.4 Conclusions	80
<b>Chapter – 4</b>	<b>A nanoporous palladium(II) bridged coordination polymer acting as a peroxidase mimic in a method for visual detection of glucose in tear and saliva</b>	<b>83-116</b>
	4.1 Introduction	83
	4.2 Experimental	85
	4.3 Results and Discussion	89
	4.4 Conclusions	116
<b>Chapter – 5</b>	<b>Facile and sensitive colorimetric assay of choline based on AuNps@WS<sub>2</sub>-QDs as a peroxidase mimetic.</b>	<b>117-140</b>

	<b>5.1</b> Introduction	117
	<b>5.2</b> Experimental	119
	<b>5.3</b> Results and Discussion	122
	<b>5.4</b> Conclusions	139
<b>Chapter – 6</b>	<b>Colorimetric detection of picric acid using silver nanoparticles modified with 4-amino-3-hydrazino-5-mercapto-1,2,4-triazole</b>	<b>141-158</b>
	<b>6.1</b> Introduction	141
	<b>6.2</b> Experimental	143
	<b>6.3</b> Results and Discussion	145
	<b>6.4</b> Conclusions	157
<b>Chapter – 7</b>	<b>Nano network of coordination polymer AHMT-Ag for the effective and broad spectrum detection of 6-mercaptopurine in urine and blood serum Nano network</b>	<b>159-190</b>
	<b>7.1</b> Introduction	159
	<b>7.2</b> Experimental	160
	<b>7.3</b> Results and Discussion	164
	<b>7.4</b> Conclusions	190
<b>Chapter – 8</b>	<b>Summary and Future Work</b>	<b>191-196</b>
