

ACKNOWLEDGEMENTS

It is my greatest pleasure to have this opportunity to express my sincere appreciation to everyone who helped me during my Ph.D. program at the Indian Institute of Technology (BHU), Varanasi. First and foremost, I want to thank my supervisor Dr. Pradip Kumar Roy, for his valuable guidance, encouragement and his paternal behaviour throughout the work. His inspiring and excellent guidance is the key reason that I could successfully finish each of research objectives. Without his guidance as a great mentor, this work would not have been possible.

I would like to express my appreciation to my second supervisor Professor Rama Nand Rai, for his motivation and valuable suggestions. His kind cooperation and constant encouragement have been impetus behind this work. I am also thankful to my research progress evaluation committee (RPEC) members, Prof. Devendra Kumar, Prof. Ram Pyare, Prof. Sandip Chatterjee, and Dr. Bhola Nath Pal, for their kind cooperation during the course of this work. I want to express my deep sense of respect and personal gratitude to Prof. Akhilesh Kumar Singh, who always encouraged me and assisted me whenever it needed and with whom I have expanded my studies in touch with the Rietveld refinement. His kind cooperation and constant encouragement have been inspiration to this work. I would like to thanks Prof. Om Parkash for his valuable suggestions and kind support. I offer my special thanks to Prof. Devendra Kumar, Head of the Ceramic Engineering department for providing all the necessary facilities of the department.

I would like to thanks Prof. Rajeev Prakash, In-Charge, Central Instrument Facility Centre and his team members for providing all the characterization facilities on time with precision, without which the completion of this work was not possible. I also wish to express thankfulness to Prof. R. K. Sinha, Dr. K. Mohanta, Dr. A. K. Dubey, Dr. M. I. Ahamd, for

their kind support and valuable suggestion and thanks to all other respected faculty members of the Department.

I would like to acknowledge to all my friends, lab-mates and seniors at IIT (BHU) namely Ms. Preeti Kumari, Ms. Suruchi Poddar Ms. Sumedha Mukherjee, Ms. Neera Singh, Ms. Akansha Mishra, Ms. Ekta Purwar, Ms. Meena Yadav, Ms. Priyanka Verma, Mr. Khagesh Tanwar, Mr. Gagan Jot, Mr. Bharat Bhushan, Mr. S.K.S. Hossain, Mr. Mukesh Suthar, Ms. Akansha Gupta, Mr. P.K. Rao, Mr. Pankaj Tripathi, Mr. Sukhdev Pandey, Ms. Sitashree Banerjee, and Mr. Rahul Singh for their nice company during my stay at the institute. I thank all my beloved friends across the globe for sharing my happy and sorrow moments at all times.

I would like to sincerely thank to Technical staff at IIT (BHU) namely Mr. Ashish Tripathi, Mr. B. Singh, Mr. I. A. Khan, Mr. Shailendra, Mr. Pawan Kumar for their help all the times. I also extend my sincere thanks to all the supporting staff of the department for their kind help whenever I required.

I can never forget my parents Mr. B. S. Shekhawat & Mrs. Manju Kanwar whose boundless love, constant inspiration, emotional support and blessings has provided me encouragement at every step of life. My parents everlasting shower of blessing kept me moving easily with all hazards vanishing miraculously. My word power fails to express my feeling of gratitude to my loving brother and sister for encouragement and moral support during my work.

Lastly, I would like to thank Almighty, for having made everything possible by giving me strength and courage to do this work.
